BINGHAM TO GET \$5,000,000

On July 27, 1918, Robert Worth Bingham, of Louisville, will receive \$5,000,000. The golden flood, which will represent the settlement of the codicil of the will of Mrs. Robert Worth Bingham, whereby her husband was left \$5,000,000 outright, represents the largest cash fortune ever coming into the possession of a Kentuckian, and marks the culmination of a real life history as dramatic as any fiction ever written by Balzac or Poe. July 27 marks the end of the probate year, and expiration of the period when anyone may contest the will or the codicil. It is equally certain that Kentucky will receive the tax on the huge Flagler estate, disposed of by Mrs. Mary Lily Bingham, who, before her marriage to Judge Bingham, was the widow of Henry M. Flagler, one of the founders of the Standard Oil Company, and the man who linked Key West to the mainland of Florida. It is not yet definitely settled whether Kentucky's share, which will more than pay the State debt, will be \$2,500,000 or \$3,000,000, but the huge sum assuredly will be received by the State.

The boy and girl romance of Judge Bingham and Mrs. Flagler, who later became his wife, began in the pleasant, tree-shaded paths of the University of Virginia when he was simply "Bob" Bingham and she was Mary Lily Kenan. But it shaded over and on up to ghastly denouement engineered by the Kenan family, when the tomb of Mrs. Bingham, in quiet Oakdale cemetery in the town of Wilmington, where she was born and had played as a little girl, was opened secretly, in the dead of night, and ghoul hands disinterred her body. The exhumation of Mrs. Bingham's body, which was done in the presence of William J. Burns, a detective employed by the Kenan family, marked the culmination of a series of ghastly episodes, which were interpreted as meaning that the Kenan family planned to contest the codicil whereby Judge Bingham was left \$5,000,000 outright by his wife.

THE USE IS RESTRICTED

The fish and game law, passed by the 1918 Kentucky Legislature does not permit seining and hoop-net fishing "in any of the running streams of the State." The compromise with the advocates of fishing with seines and hoop nets does not effect fishing in any but boundary line streams and streams within the State which are made navigable by being improved with locks and dams. Fishermen who use seines or hoop nets in other than boundary line streams within the boundaries of Kentucky will be violators of the law. To provide an illustration, the compromise measure permits the use of nets in the Ohio, or in Kentucky River, but not in Elkhorn, or Salt River, or in any stream which is not a navigable stream within the meaning of the law as set forth in Section 1 which is as follows: "A navigable stream within the meaning of this act is a stream which has been improved by locks and dams and a nonnavigable stream is one which has not been so improved." The law which the 1918 Legislature passed is regarded by sportsmen as bad in that it invites the seiners and the hoop-net fishermen to take an inch and risks their taking an ell. It is believed that it will render the enforcement of what remains of the fish conservation law far more difficult than it would be had no compromise been made, but it does not permit taking fish by seines or hoop nets "from any running stream." On the contrary it forbids expressly such fishing in other than boundary line streams or the locked and dammed streams above the uppermost lock and dam.

Constipation and Indigestion.

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.

The total amount the government provides the President for clerk hire and White House expenses, including his salary, is \$250,000 annually. Of this, \$75,000 is salary, \$25,000 traveling expenses and \$150,000 for the other expenses.

Nature Cures, The Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.

COL. ALLEN'S GREAT SPEECH

Before an audience that taxed the capacity of the large court house auditorium yesterday afternoon Col. John Rowan Allen, of Lexington, delivered a soul stirring address in the interest of the Third Liberty Loan. Rev. Howard J. Brazelton opened the meeting with prayer, after which several patriotic songs were sung by the audience, led by that sweet singer, Miss Katherine Warriner, of Hustonville. Mr. J. S. Hocker then presented Mr. Allen in a well chosen speech. Col. Allen, always pleasing in his public addresses, seemed at home with his new theme, and round after round of applause swept the building as he pictured the untold hardships and sacrifices of the American troops. "The government does not want you to give your money away," said he, "it merely wants to borrow it for a time, and no better security under the sun can be given than the seal which the government places on each bond." Attention was forcibly called to the fact that the government has the power under emergency to confiscate property, but hope was expressed that the people would respond so liberally with Liberty bonds that this step would not be necessary, and judging from the enthusiasm displayed by the audience Lincoln county's quota will be more than subscribed. Col. Allen closed his address with a beautiful tribute to the great armies now struggling against the hordes of the Hun and called for subscriptions.

An example of the intense spirit of patriotism and willingness to sacrifice all if needs be, was shown when Attorney K. S. Alcorn arose and in the name of Oma Simpson, subscribed \$350 to the loan. He explained that this little girl was born both deaf and blind, but had scant means and for several years had been under the instruction of his sister, Miss Sotie Alcorn, who has made almost phenomenal progress in her chosen line. The little unfortunate, Mr. Alcorn said, had saved her pitance and now when the call of her country came, was willing and glad to do her bit. The audience cheered to the echo the manifestation of the lofty spirit of this little girl and subscription after subscription was taken until the total ran well into the thousands.

Following is a list of those who subscribed to the noble cause:

R. E. Gaines, \$200; Howard J. Brazelton, Jr., \$50; Mrs. Hugh Reid, \$1,000; J. B. Paxton, \$1,000; Rev. P. L. Bruce, \$50; Miss Ellen Ballou, \$100; J. M. Gover, \$500; J. H. McAlister, \$200; J. STANFORD DEFEATS DUMMIES

In the first game of the season, the Stanford boys came out victorious Friday afternoon in their bout with the Kentucky School for the Deaf. The afternoon was a little chilly for baseball, and the fact that it was the first game for both teams accounted for the fact there were a number of errors made. There seemed to be no question, however, of the superior work of the local players, for although the "Dummies" got away to a one-run lead in the second inning, Stanford came right back in their half, and went them one better. They were never headed and when time was called were leading by a 6 to 1 margin. Will Reinhardt pitched an excellent game for Stanford, allowing but five hits and striking out an even dozen batters. Joe T. Embury was the bright particular star for Stanford in the field. He made three catches, any one of which would have done credit to a major league player. In the third inning this fleet-footed left fielder raced away out to the foul lines, and dodging a big flock of buggies, caught Brisse's fly; in the fourth inning he romped up back of short stop and falling forward on his elbows, snatched Lowry's drive at the edge of the grass. Barron played the best game for the D. & D's. The next game was scheduled with Somerset, but owing to Seniors' practice for their play Friday evening the encounter will likely be postponed till next week. The score by innings:

1 2 3 4 5 6 7 8 9—R.H.E.
K.S.D. 0 1 0 0 0 0 0 0 1 5 9
S.H.S. 0 2 0 1 0 2 1 0 6 8 4

Sacrifice hit, E. Tanner; two-base hits, Spangmore, Spragens, Barron; stolen bases, Spangmore 2, P. Tanner 2, Spragens 2, Reinhardt, Brisse, Barron, Lowry; struck out: by Reinhardt 12; Boltz 3, Lowry 7; base on balls, Reinhardt 2, Lowry; wild pitch, Reinhardt; passed balls, Spangmore, Crouch 2; Scorer, Tilden Cooper; Umpire, Penny.

THREE GOOD MEN WANTED

The Local Board of Lincoln county has received a call for three men to report at Indianapolis on April 15th, 1918; the order calls for volunteers to report to this Board on or before the 12th of this month; if on the 12th, the three volunteers have not come forth to fill this quota, the Board is ordered to select in sequence of order number a sufficient number of qualified men from Class 1 to fill this allotment. The men called for are to receive a two-months' course of training at the government's expense, fitting them to serve in army positions requiring knowledge of automobile driving and repairing, blacksmithing, carpentry, gunsmithing, sheetmetal work, and other mechanical duties extending to many kinds of military service both at the front and behind the lines. Only white men who have completed the eighth grade in school are to be inducted.

MORMON ELDERS DETAINED.

Two men, claiming to be Mormon Elders, were detained here the other day and closely questioned by the authorities. After answering all of the questions satisfactorily they were permitted to go. They said they had come to Lincoln county to preach their gospel and to see a member of that church named Mason, who lives on the farm of T. J. Hill, Sr. The men preached on the street almost all day here yesterday, but whether or not they did any good for their church and creed remains to be seen.

JOHN M. LONG DEAD.

Mr. John M. Long, aged 64, died at his home near Highland and was buried at Mt. Moriah church this morning after remarks by Mr. J. C. McClary. He died suddenly of heart trouble at 10 o'clock Saturday morning. Besides his wife he leaves two sons and three daughters. Mr. Long was a fine old gentleman and his death has occasioned much regret in the community in which he had lived so long and where he was so universally liked.

R. L. PORTER DIES SUDDENLY

Stanford people were both surprised and grieved this morning when it was learned that Mr. Robert L. Porter, one of the best known men of the town, had died during the night. Only yesterday he was seen on the street in his usual health and it was hardly believable that his end could have come so quick. Between 2 and 3 o'clock in the afternoon he went to his room and told Miss Mary Vanoy, who has a room next door, that he was not feeling well and would lie down a while, saying that if he did not get better he would call her. It was not long until he told her he was worse. Dr. Lewis J. Jones was summoned and during the afternoon and night he called four times. About 2:30 this morning he left the patient, telling Miss Vanoy that he thought he was resting nicely, but a change for the worse came and at 6:45 the final summons was answered. Mr. Porter was 75 years old and most of all of his long life had been spent in Lincoln county, where he was known of men and greatly admired by them all. As honest as days are long, as clean as men get to be, and as gentle as a woman, Mr. Porter was a man among men and a gentleman of the old school. That he bound to him friends as with hoops of steel is shown in the fact that men unused to weeping, broke down when they visited his bier today. Eight years ago Mr. Porter was called upon to give up his wife and since that time he has made Stanford his home, coming from his farm out on the Lancaster pike. In latter years he had assisted J. L. Beazley with his undertaking business, and that gentleman was so upset by the loss of his friend that he was hardly able to prepare his body for burial. "I looked upon Mr. Porter as a father," said Miss Mary Vanoy, as her voice trembled with sorrow, "and I shall miss him more than almost anyone," she continued. Such kind expressions are heard from many, for to know Mr. Porter well was to admire him greatly. Only two children survive the good man: Mr. William H. Porter, of this county, and Robert Porter, of Kell, Ill.; and in their sorrow they have the sincere sympathy of their many friends. Since his early youth Mr. Porter had been a devout member of the Christian church and for many years he took a leading part in the work of the congregation. The funeral will be preached at the Christian church at 3 o'clock Wednesday afternoon and the burial will follow in Buffalo Springs Cemetery. Dr. H. J. Brazelton will be assisted in the services by Dr. P. L. Bruce. The following gentlemen will act as honorary pallbearers: Dr. J. F. Peyton, Messrs. Arch McRoberts, S. H. Baughman, J. C. Hays, J. E. Bruce, S. T. Harris; the active ones will be Messrs. J. H. Baughman, W. B. Hill, J. W. Baughman, W. M. Bright, E. T. Pence, Sr., and J. Frank Smith.

MRS. JENNIE B. DAILEY DEAD

Mrs. Jennie B. Dailey died at the home of her daughter in Little Rock, Arkansas, on April 2, and was buried at Paris, Texas, where she had lived for several years. She was born and reared in this county, being a daughter of the late John L. Ballinger, who practiced law in Stanford until a short time before the Civil war. Her husband, Dr. W. E. Dailey, now dead, practiced medicine here several years after the war. Mrs. Dailey was possessed of great brilliancy of intellect and was a most excellent woman in every particular. She was in her 78th year at the time of her death.

HERBERT BAILEY A GENIUS

Herbert L. Bailey, of the Bailey Garage, this city, is a genius and a mighty good man to have in town, as the Interior Journal has found out on several occasions. Monday a very delicate part of the cylinder press in this office broke and it looked for a time as if not a wheel could be turning until the part could be supplied from Chicago. Mr. Bailey was called into consultation and in less time than it takes to tell it, had mended the broken part and the press was running as usual. This paper desires to commend Mr. Bailey to those who are in distress as we were for a while yesterday.

\$12 DAY FOR HEMP HAND

L. Phil Nunnelle is having his hemp broken, but it is costing him a small fortune to have it done. He is paying \$3 per hundred pounds, and the hemp breakers are making more money out of the crop than Mr. Nunnelle will realize. One man broke 400 pounds the other day and drew down a check for \$12.

THE LATEST WAR NEWS

Despairing of capturing Amiens the Germans have launched a new offensive from Lens to Chauny. On a front approximately 120 miles long they are delivering sledge-hammer blows in hope of breaking down the allied defenses. At places they have made meager gains, but only after terrible losses, being raked by a tempest of shells. There is wholesome respect shown by the German General Staff for the Allied Reserve Army, which has been drawn on but little to meet the Teuton attack. Scant news from Italy is taken to indicate that an attack is not far off.

Intense efforts to capture Amiens having proved futile, the German offensive has died down, resolving itself into isolated engagements. Everywhere the French and British have held their ground, and here and there along the line have regained lost positions. Gen. Foch, it is understood, is biding his time, straightening his lines and arranging his men for the opportunity to strike. The Kaiser, who has directed the operation on the western front, soon will leave for Rummnia.

French and British tenacity have upset the plans of the Germans. By the terrific losses the enemy has been forced to suffer and the constant call upon its reserves, the Germans have made small commensurate gains. The offensive is not yet spent and hard fighting still can be expected. This is the gist of the War Department's review of the week's activities on the Western front.

Andre Tardieu, French High Commissioner to the United States, in a patriotic address in celebration of the entry of America into the world war, urged that the United States be not too late in answering the needs of the Allies to keep back the Hun hordes. He predicts that 1,000,000 American soldiers will be fighting in France by next summer.

"Force, force to the utmost, force without stint or limit, the righteous and triumphant force which shall make right the law of the world and cast every selfish dominion down in the dust." In these words President Wilson accepted the challenge of Germany that might makes right. He spoke at the opening of the Liberty Loan campaign in Baltimore. The President declared the issue was plainly drawn between world dominion as sought by the Germans and the self-sacrifice of the Allies that the world may be free. The conquest of Russia he termed a cheap triumph. He declared he still would be willing to consider a peace based on justice and liberty.

Germans attempted a raid on the American positions near Toul, but were driven off by artillery and machine gun fire, leaving two prisoners in the hands of the Americans.

America has a fleet of more than 150 vessels in the war zone, according to Secretary Daniels, who opened the Liberty Loan campaign in Cleveland.

The German long-range gun has bombarded Paris. The builder of the supercannon, manager of the Krupp works, declares artillery so powerful will be developed as will be able to shell England from the Continent.

MISS ESTILL WALKER DEAD.

Miss Estill Walker, daughter of the late J. Wade Walker, of Garrard, died at a hospital in Louisville Monday and will be buried at Paint Lick this afternoon. She had been ill for some time and her death did not come as a surprise to those who knew her real condition. Besides her mother, she leaves one brother, Dr. Frank Walker, of Louisville. Miss Walker had many friends and relatives in this county who are saddened by her taking away.

OUR MODERATE INCOME TAXES

In comparison with the tax levied in England on incomes our own income taxes are moderate indeed. In England the tax on incomes of \$1,000 is 4 1-2 per cent, in America nothing.

In England the tax on incomes of \$1,500 is 6 3-4 per cent; in America nothing for a married man or of families, and 2 per cent on \$500 for an unmarried man.

In England the tax on an income of \$2,000 is 7 7-8 per cent; in America nothing for a married man or head of family, and 2 per cent on \$1,000 for unmarried men.

The English income tax rate also increases more rapidly with the growth of the income than ours, a \$3,000 income being taxed at 14 per cent, \$5,000, 16 per cent, \$10,000, 20 per cent, and \$15,000, 25 per cent, while our corresponding taxes for married men are respectively two-thirds of 1 per cent, 1 1-2 per cent, 3 1-2 per cent and 5 per cent, and only slightly more for the unmarried, due to the smaller amount exempted, the rate being the same.

WOMEN TORTURED!

Suffer Terribly With Corns Because of High Heels, But Why Care Now.

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infections says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of an ounce of drug called freezone. This is sufficient to remove every hard or soft corn or callus from one's feet. You simply apply a few drops directly upon the dnteer, aching corn or callus. The soreness is relieved at once and soon the entire corn or callus, root and all, lifts out without one particle of pain.

This freezone is a sticky substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Tell your wife about this.

BASEBALL PROSPECTS FAIR.

Baseball prospects are looming up at S. H. S. Each afternoon for the past two weeks there has been a score of candidates out for practice. The team has been handicapped by the graduation of former stars and by enlistments in nearly all branches of Uncle Sam's service. It is hoped, however, that there is enough good material on hand for a good team, and with proper handling and the co-operation of all, it should prove a winning combination. It is likely some youngsters will have to be tried out in the pitcher's box, among whom are Harvey Embry and Franklin Ashlock. First base is sure to be well taken care of by John Reid McKinney or Manager Edward Tanner, while the other will be shoved to third base, where he will have to beat out Frank Cordier, alias "Buck" before having his job "cinched." Patterson Tanner can take care of second base in acceptable fashion, while Capt. Clem Hill will cavort in the short field. The toughest proposition seems to be the question of who is to occupy the place of distinction behind the bat. Every fellow seems to be content to let someone else have the "distinction," which includes foul tips, thrown bats and other things equally unpleasant. In the outfield, there is plenty of material from which to choose. Sam Craig, William Welburn, Joe Grimes are the most likely "lookers." There are many other candidates, including Joseph Ballou and Paul Garman. The team may not prove a sensation but with continued practice and plenty of team work, S. H. S. ought to win a majority of her games this spring.

MOTOR TRUCK MAIL ROUTE.

A dispatch from Washington says that the postoffice department is preparing to make an inspection of the eastern route of the Dixie Highway from Cincinnati to Knoxville with a view of establishing a motor truck mail route and parcel post service on this thoroughfare. If this service is established it will carry letter mail and parcels to the various towns between Cincinnati and Knoxville, and via Knoxville to Chattanooga. It would touch Georgetown, Lexington, Richmond, Berea, Mt. Vernon, and Livingston. It is not announced when this inspection will be made, but the department hopes to complete it during the coming summer.

SUBURBAN PROPERTY

Tuesday, April 16th

At 10 o'clock A. M. (New Time)

I will sell to the highest bidder the beautiful suburban home and 14 acres of land of F. I. Jones, located just one mile from Danville, fronting on two pikes, the Danville and Lancaster pike, and Danville and Stanford pike.

The property will be subdivided and sold in separate lots and tracts, giving opportunity to those wanting building lots, those wanting smaller acreage with the residence and to the purchaser who may want it all.

The improvements consist of modern bungalow of six rooms, new barn, chicken houses, other outbuildings, splendid orchard. A well 90 feet deep is on the property, which will provide sufficient water for a splendid water works system for the entire property.

Danville is one of the BEST towns in Central Kentucky (those living there say THE BEST); its citizens "wide-awake," progressive, moral, and hospitable; its male and female schools and colleges have made its reputation as an educational center unexcelled. Numerous facts can be presented as to the desirability of this property, but want of space forbids. COME TO THE SALE AND BE CONVINCED.

At least three classes of bidders should be at this sale:—Those wanting a home or building lots, the speculator in land (as land values are increasing around Danville), and the progressive business men of Danville who desire to assist in "boosting" and building up their City. Presents, and gold and silver and paper money given away at the sale.

For further particulars, see Mr. Jones at the residence, or

WAYNESBURG, KY.

Fuel Administrator Garfield has issued a new schedule of prices for coal at the mines. According to the estimations of a coal operator in the Harlan field, the new prices mean a reduction of 65 cents a ton for East Kentucky coal.

Losses to British shipping for the past week showed a marked decrease. Only six merchantmen over 1,600 tons and seven under that weight were sunk. A British torpedo boat destroyer was torpedoed, but all on board were saved.

News comes from Wayne county that W. M. Thatcher and associates have purchased oil leases covering 16,000 acres of J. C. Dennis for \$8,000 or an average of \$5 per acre.

A fine of \$8,420 was assessed against the Louisville & Nashville Railroad Company yesterday by a jury at Shepherdsville, that found the company guilty of maintaining a common nuisance. The prosecution was brought under common law procedure and was the outgrowth of the disastrous wreck December 20, 1917, at Shepherdsville.

U. S. Military experts are puzzled by the delay of the Allies in delivering their counter attack. They fear that valuable time is passing and that the Germans are being given an opportunity to dig themselves in. In the neighborhood of Amiens a big artillery duel was commenced, indicating a new offensive.

ARRESTED AS VAGRANTS

The other day Chief of Police George T. Wood ran across four colored men, who seemingly had neither object in life nor anything to do, and closely questioned them. He found that they were from Anniston, Ala. Two were permitted to go, but the other two—Walter Page and George Brown, were arrested and placed in jail. Authorities at Anniston were wired and a response came that they were not wanted there and this morning they were discharged with the admonition to get out of town p. d. q. and they did so.

THE INTERIOR JOURNAL

E. C. Walton and J. H. Wright

Entered at the postoffice at Stanford, Ky., as second class mail matter.

One of the easiest ways to tell the pro-German sympathies of a newspaper is to observe the manner in which it gives unusual importance in head lines and position to the utterances of the most dangerous ally the Germans have in this country—Theodore Roosevelt. He made the occasion of the meeting of the Republican state convention in Maine another tirade against Wilson, against whom he breathed threatnings and slaughter because he has not conducted the war as he would have done. It is however, very easy to criticize. The man upon whom the responsibility of action falls and who realizes how great is his task, which he performs with fervent appeal to Almighty God for guidance, is the man who deserves our sympathy and support. It would be a great deal better for this country if the tongue of the disgusting ex-president would cleave to the roof of his mouth.

Senator Ollie M. James has announced for re-election as U. S. Senator. Good. We would about as soon think of voting against President Wilson as Senator James, who has been his right hand bower thru all of these stormy war times. One of the very biggest and best men in the Senate, it would be a calamity to even give him opposition from the party he has served so well. The republicans may try to defeat him, but they haven't a show on their lives and the effort will be more to make a show and keep up the organization than the expectation of success. By all means let Senator James stay where he is and where he is so badly needed.

A scanning of the Congressional Record shows that there are two men at least, who have much to say but do not add greatly to the sum total of human knowledge. They are Nicholas Longworth, of Ohio, whose principal claim to fame is that he married Col. Roosevelt's daughter, and Representative John W. Lingley, of this state. Hardly a day passes that one or both does not make exhibitions of themselves, like the monkey climbing a tree. Another man that is often on his feet is Congressman Barkley, of the First Kentucky, and sometimes it would be better if he listened instead of talked.

With the horrible proof before him always that the way of a transgressor is hard, it would seem that a man would be deterred from committing a crime that would put him in durance vile. But not with Nat May, of Frankfort. He lived next door to the penitentiary, where he could see men doing penance for crime but it moved him not to act so as to avoid the terrible consequences. The desire for pelf was greater than his fear of punishment and he stole a lot of hides, was convicted and sentenced to a year, having only to move one door from his home.

An unnaturalized German, named Linus Weber, was found guilty at Louisville, of making seditious remarks and sent to jail at Elizabethtown to be interned for the duration of the war. He is said to have cursed the president on several occasions and to have wished for the success of the kaiser. If he looks like the picture the Courier-Journal prints of him, he would be convicted of treason, statestegems and spoils by any dozen men without a particle of evidence. It is the meanest mug we have ever seen in a newspaper.

We do not often have occasion to criticize the president, who is carrying his load of terrible responsibility with great wisdom and discretion, but we want to mildly suggest that his letter to the governor of California asking for the pardon of the arch fiend, Mooney, who threw a bomb on preparedness day, which killed ten men, will not meet the approval of the American people. If ever a creature deserved death, Mooney does, and it is a mistaken evidence of sympathy to want him longer to desecrate the earth.

Lexington has the unusual distinction of having a woman naval recruiting officer. She is acting in the place of her husband, who is off on business, and it is said that she does the work like a veteran. It begins to look like women are going to fill every important position even before they are all given the right to vote.

Caleb Powers has dropped out of the Congressional race in the 11th, using as an excuse that his health wouldn't stand the strenuousness of a canvass of his district. Bosh. He saw the handwriting on the wall and was too "yellow" to go further in the race against a gentleman, such as Mr. J. H. Robison, of Barbourville, is.

MR. SINGLETON'S CORRECTION

I notice in the Interior Journal of April 5th, that I did my utmost to get the Magistrates to give 20 cents for school purposes as I understand it. I asked for 15 cents as per order of the County Board of Education. There was nothing said about 20 cents while I was before the court. The County Board of Education has always asked for the least possible that the schools may be kept in proper condition. G. Singleton, Supt.

Lieut. Col John H. Allen, camp surgeon at Camp Zachary Taylor, was completely exonerated by the general court-martial before which he was tried recently on charges growing out of the death of Private Otha Murray, of Cumberland county, Kentucky. He was charged with having procured a discharge for a sick soldier without having investigated into his condition, and with having been disrespectful to his commanding officer.

Derby Adkins, of Mexico, Mo., shot and killed his father-in-law, his mother-in-law, his wife and then ended his own life. He had been separated from his wife. The tragedy followed a family quarrel. The man's weapon was a shotgun.

STOMACH ACTS FINE!

NO INDIGESTION, GAS, HEARTBURN, ACIDITY

"Pape's Diapiespin" Fixes Sick, Sour, Upset Stomachs in Five Minutes

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapiespin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomachs. Its quick relief in indigestion, dyspepsia and gastritis, when caused by acidity, has made it famous the world over.

Keep this wonderful stomach sweetener in your home—keep it handy—get a large fifty-cent case from any drug store and then if any one should eat something which

doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapiespin comes in contact with the stomach it helps to neutralize the excessive acidity, then all the stomach distress caused by it disappears. Its promptness, certainty and ease in overcoming such stomach disorders is a revelation to those who try it.

The special meetings at the Christian Church continue with interest. There were two more additions Sunday morning. At the night service Mr. Bruce preached a splendid sermon to a large audience. Miss Warriner sang at each service and her solos are truly "the Gospel in song."

A request having come for a special service for old people, that service is being held this afternoon. Cars have been furnished for all unable to come otherwise. The old songs are being sung and the message adapted to the occasion. These meetings will close Wednesday night.

At the morning service of the Christian church Sunday, April 7th, the Emergency Drive for raising two and a quarter million dollars among Christian Churches of America was taken up. Telling addresses were made by C. E. Tate, W. H. Shanks and Howard J. Brazelton and in ten minutes twelve hundred dollars were subscribed and all returns are not yet in. These subscriptions will all be paid in Liberty Loan Bonds or War Savings Stamps, thus helping the government as well as relieving the strain on the missionary, benevolent and educational institutions of the church. Much enthusiasm prevailed in the service. This fund will be additional to all other contributions made by the church this year.

MARRIAGES.

O'Bannon Privitt, aged 21, and Miss Dollie Middleton, aged 16, were married Monday at the home of Eld. Joseph Ballou by that gentleman. The groom is from the McKinney section, while his bride is a resident of Danville.

Miss Risse McFerron, daughter of Mrs. Fred Kreuger, of Mt. Vernon, and John D. Miller, a popular conductor of this branch of the L. & N., were married in Louisville Friday.

The bride, who is a most charming young woman, visited Mrs. S. Burdette McKenzie here last summer and made many friends who remember her with pleasure. She is one of Mt. Vernon's most popular girls and will be missed by her legion of friends there. She was attending the Bryant & Stratton Business College, in Louisville at the time of her marriage. Mr. and Mrs. Miller will make their home at Lebanon Junction, where the good wishes of their many friends will always be with them.

EVERY HOOF OF CATTLE SOLD.

There were about 1,000 cattle at Jones Stock Pens Monday and they were all disposed of, buyers being here from many counties. While the sale was hardly as brisk as that of a month ago, buyers and sellers got together and made a clean up. Prices ranged from 7c for cows to 11 1/2c for a choice lot of steers. Heifers sold at 9 to 10c, and steers at 9 to 11 1/2c. Quite a number of mules sold at \$150 to \$240 and a lot of plow horses changed hands at \$60 to \$80. The best in the horse line sold at \$125 to \$160. There was very little demand for good horses. A good crowd was in town and business generally was satisfactory.

Some Good Advice.

"Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.

ELDER JASPER G. LIVINGSTON'S GOOD WORK

The following, from the pen of State Evangelist J. B. Jones was written many years ago, but is yet of interest to the many friends of Eld. J. G. Livingston, whose splendid work in the pulpit and elsewhere during his long ministry will prove an interesting chapter in the history of Lincoln county:

"It gives us pleasure to report in these columns two years county work in Lincoln county, conducted chiefly by our efficient and worthy brother, J. G. Livingston.

"The work began in 1886. He first visited the county poor house, where there were thirty-five inmates. The blind, lame and halt were ready to hear. Bartimeus, an old blind man who had seen seventy winters, heard and obeyed the same hour of the day. The county has since made provision for regular preaching to these unfortunate people. 'The poor have the gospel preached unto them,' is fulfilled here, if nowhere else.

"Holdham's Mill, in the South-east part of the county was next visited. Prejudice was so rife that some said, 'This man has a new Bible.' He never heard the gospel on this wise before. Ten days' hard work induced forty-eight to make the good confession, eight to unite with us from the Baptists and eight to return to Jesus the Shepherd and Bishop of their souls. Money received, forty-five cents.

"Preachersville was next visited. It is located midway between Lancaster and Crab Orchard. The appointment was made for a school-house. The doors were locked. But preaching was done under a clear sky and in the freedom of the great 'out doors.' In one week twenty-five made the good confession, one united from the Baptists, and two were restored. \$25 contributed.

"Sugar Grove was next evangelized. This was a school house in sight of his own dwelling. Fifty-five made the good confession; six were received from the Baptists and four persons restored. Received \$30.

"Preaching was done at many other places in 1886 with like success.

"In 1887, J. G. Livingston visited what was called 'Soapers.' This section was noted for 'lewdness and drunkenness.' It could almost rival Corinth. It had been abandoned by the Baptists who once had a church there. The origin of the name is in keeping with its character. Wild hogs were abundant. The people met on one occasion to hunt, kill and appropriate. The lean hogs were made into soap. The hour for division of the spoils came. Passion and whiskey are not good judges of right. No trusted hand could hold the scales. So there was a general row. Henceforth the place was called 'Soapers.'

"Our brother came with the gospel—a refiner's fire and a fuller's soap. Fourteen made the good confession, eight came from other religious bodies and one was reclaimed. Now, when he reads in the Corinthian letter, 'Such were some of you, but you are washed, you are sanctified, you are justified in the name of the Lord Jesus and in the Spirit of our God,' he thinks of the people at 'Soapers.'

"Adams' School House was next evangelized. Forty made the good confession; twenty came from the Baptists and five were restored. Here five dollars was contributed to his support. All the young people who years before had gone to school to him made the good confession. The reading of a chapter every morning in opening the school had done its work.

"King's Mountain, on the Cincinnati Southern railway was decidedly the most ungodly and sin-cursed place in the county. Over two hundred men were engaged in arching the great tunnel at that point. On his way there he met a man who advised him to go back home. 'You will be mistreated,' said he. 'They killed a man there last Sunday, and whiskey flows up and down the streets.' In thirteen days there were twenty-five additions, and a congregation was organized. From time to time he visited them, and as county evangelist held several meetings. Last year J. L. Allen came to his assistance, and as a result of their joint efforts a \$1,250 house was built, and the congregation now rejoices in the regular ministry of Jas. L. Allen.

"This is only part of a great work done by an unassuming and retiring man of God who came to us from the Cumberland Presbyterianists. The Goshen church for which he has ministered regularly for years, owes its existence to him, and so, many souls in and out of the county were led to Christ by his preaching. These facts are given to encourage counties to attempt school-house work. The Bluegrass region is filled with people who will go to school-houses to hear the word when they can not be induced to go to cities or towns. In one year such work as J. G. Livingston has been doing,

could be made to arouse a spirit of aggression against sin, and fill our churches with recruits who will add to our strength.

"While Lincoln county has done this work, or aided our brother to bear part of its burden, the congregations have not forgotten our State work. We expect them to evangelize not only at their doors; but to aid us in sounding out the word of God in all the mountains."

By a majority estimated at 10,000 votes, Irvine L. Lenroot was elected United States Senator from Wisconsin to succeed the late Paul O. Hustling. The returns showed that Joseph E. Davies, Democrat, whom Lenroot defeated, lost heavily in the counties with heavy German populations, where the voters went to Victor L. Berger, Socialist, who ran third, approximately 35,000 votes behind Davies.

J. Elmer Boardman sold 90 cattle at the L. & N. pens at Paris. Frank Collins bought 20 at \$72; B. F. Stipp 20 at \$70, and 15 at \$69; Joseph Houston bought 18 at \$66.75; and W. D. McIntyre 10 1,000-pound cattle at \$11 per hundred pounds, and \$1 per head added.

HERE IS HONOR FLAG OF THIRD LIBERTY LOAN; LET'S FLY IT FIRST

Third Liberty Loan Honor Flag.

By the Honor Flag of the Third Liberty Loan we will know the patriots of the nation—the individual patriots, the town, city or county patriots, the state patriots.

The community over which the Honor Flag flies first will be the community which has first loaned to Uncle Sam all he has asked to borrow from that community to carry on the war for the freedom of the world.

The specially designed Honor Flag shown in the picture will be awarded to every community to which a quota has been assigned as soon as that community has attained that quota.

Then each subscriber in that community will get a small poster for home window display containing a reproduction of the Honor Flag and a blank for the name of the subscriber.

In each community to which a quota has been assigned a large honor roll will be posted as conspicuously as possible at the top of which will be a

replica of the Honor Flag and the slogan: "Help Our Town Win the Right to Fly This Flag." Space will be left below for the enrollment of names of all subscribers in the community.

A large Honor Flag will be awarded to each state in the union as that state reaches its quota. On the state flag will be enrolled the names of the communities in that state as the communities reach their quota. The flag will be flown at the capital.

The parent flag of all the Honor Flags will be unfurled at Washington and on it will be recorded the names of the states in the order in which they go "over the top."

The Honor Flag is white with a red border and three blue horizontal stripes through the white rectangle.

The Honor Flag for communities will be 36 inches wide and 54 inches long. They are of the same quality as the flags of the navy.

OLD SQUIRE DIVVIES WITH UNCLE SAM

Squire Bob Hill.

Squire Bob Hill, of Muhlenberg township, Pickaway county, Ohio, has never made any pretensions to excessive patriotism. He has just lived along in a quiet sort of way and attended to his business, leaving his patriotism to take care of itself; much the same as most of us do.

But along about wheat selling time last winter there was a Y. M. C. A. campaign in. Squire Bob sold his wheat at \$2.25 a bushel. It was more than he had ever got for wheat in all his life.

"I'm not entitled to such a price," Squire Bob told his friends afterward. "I can make money at a dollar a bushel less. Uncle Sam is entitled to a part of this year's proceeds."

So he gave the Y. M. C. A. a hundred dollars. And he might admit having bought a Liberty Bond or two. And he took a fat hog over to Circleville and auctioned it off on the public square, turning over the proceeds to the Sammies' Christmas fund.

And the funny thing about it all was that his \$100 contribution to the Y. M. C. A. made some of the wealthier and more ambitious citizens of the township dig down for a second \$50 to keep pace with the modest squire of Darbyville.

What a pity there aren't more Bob Hills scattered around Ohio!

A CHILD GETS CROSS, SICK AND FEVERISH WHEN CONSTIPATED

Look Mother! If Tongue Is Coated Clean Little Liver and Bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine made by "California Fig Syrup Company."

INCORPORATED

SIX REASONS FOR AVERY KEROSENE TRACTOR SUCCESS

The design and construction of a tractor is mighty important. Study these special features in the design and construction of Avery Kerosene Tractors and you will understand why they are making good on any size farm—large, medium or small.

First—Avery Tractors have a special sliding frame which makes possible the elimination of the intermediate gear, shaft and boxings. An Avery Tractor has the least gears, the least shafting and the least bearings of any two-speed, double drive tractors built—which means more power and longer life.

Second—Avery Tractors have two rear drive wheels and two speeds—a big advantage over single-drive and one-speed tractors.

Third—Avery tractors have slow speed, heavy duty opposed motors—not high-speed, light automobile motors.

Fourth—Avery crankshafts are one-half the diameter of the cylinder or more. You don't need to be afraid of having broken crankshaft.

Fifth—Avery motors have renewable inner cylinder walls. These wearing parts can be replaced without buying an entirely new cylinder.

Sixth—Avery Tractors are entirely free from all pumps and fans. All such easily broken and troublesome parts are done away with in the construction of an Avery Tractor.

All these features are fully described and illustrated in the 1918 Avery catalog. The valuable information which it contains will make it well worth your time to read over. Ask for one. Can Demonstrate an 8-16 H. P. Tractor to You at Any Time.

CONSIDER THE POILU— THEN BUY A BOND

We have just seen a letter from a French soldier in the artillery. He is overjoyed, for he has had a promotion in rank and now he is to get 14 cents a day. He is proud that he is now independent and doesn't have to call upon anybody to help him out.

As for the danger—poof! For two years he went through the thick of things for 5 cents a day, then he was raised to 7 and now to 14.

This offers a bunch of suggestions to every indifferent American, for that French soldier is fighting our battle while fighting his own.

LIEUTENANT SOUSA— MINUS THAT BEARD

Lieut. John Phillip Sousa.

Lieutenant John Phillip Sousa has lost his beard.

That beard had become a national institution. It was known wherever band music was heard. But when he began training the Jackies of the Great Lakes Naval Training School band at the naval training station at Great Lakes, Ill., and took on the title of lieutenant he left off the beard.

The loss of the jaw adornment was not accompanied by any loss, however, of the old Sousa knack of getting the most out of a band that is in it. Lieutenant Sousa has imparted all the old fire to the boys of the naval training station and how faithfully they have absorbed it will be seen in many cities and towns of the Fourth Federal Reserve district during the weeks of the Third Liberty Loan drive. The band is to make a tour of the district.

THE BAND THAT BOOSTS THE BONDS

A Section of the Great Lakes Naval Training School Band.

One of the big noises of the Third Liberty Loan drive is to be the Great Lakes Naval Training School band from the training station at Great Lakes, Ill.

The band is to make a tour of the Fourth Federal Reserve district and attempt to use the charm of music to

bring forth the necessary dollars to oversubscribe the loan.

The boys will cover as many of the cities in the Fourth District as they are able to make during the weeks of the drive.

The Jackies in the band have had their training under the watchful eye

and restless baton of John Phillip Sousa—now Lieutenant Sousa. They send their music way down inside to wake that deepest, dormant bit of patriotic feeling.

They are being managed en tour by Lee Clark Vinson, one of the workers of the Cleveland organization.

Wesley C. Blankenship, who has charge of the Paxton farm, has 30 ewes which produced 47 lambs, only one of which was lost and that was killed by a dog. This is a pretty good record both for sheep and shepherd.

The Germans are now claiming that bad weather, not the Allies, halted their drive in France. If the Lord does not attend to his job better than that the kaiser may have to fire him.—Courier-Journal.
